

ART STRIP

NEW

PATENTED PRODUCT®

The Art Strip provides an easy-to-install, invisible picture hanging system. The Art Strip replaces the side strip used for securing ceiling systems. The Art Strip includes an aluminium rail, in which the Twister hanging cables can be used to hang wall decorations wherever you like. A subtle and perfect hanging system is the result, without ever damaging the walls. The all-in-one functionality of the Art Strip is perfect, integrating the side strip and a perfectly invisible picture hanging system.
