

TECHNICALLY PERFECT / TECHNISCHE PERFEKTION

A rail that is in keeping with the artwork. Externally finished in a refined style, whilst strong and reliable at the same time. With none of its functionality and quality sacrificed. Easy to handle thanks to its light weight, and simple to fix to the wall using its clips.

Eine Schiene, die zum Kunstwerk passt. Im Aussehen elegant verarbeitet, zugleich jedoch stabil und zuverlässig. Unter Wahrung aller funktionellen und qualitativen Eigenschaften. Dank des geringen Gewichtes praktisch zu verwenden und mittels Clips einfach an der Wand zu befestigen.

PA -70%

Polyamide reinforced with fibreglass
Glasfaserverstärktes Polyamid

Reduced material consumption

MICRO GRIP

The Micro Grip hook has been developed in an environmentally friendly way and combines two tried and tested techniques: the self-locking clasp mechanism built into the hook, and the use of technically advanced plastics.

Der Micro Grip-Haken wurde nach ökologischen Kriterien entwickelt und kombiniert zwei bewährte Techniken: den im Haken integrierten selbstverankernden Klemmechanismus und der Einsatz eines hochwertigen technischen Kunststoffes.

TWISTER MICRO

The exceptionally thin Twister Micro perlon or steel hanging cords are just 1 mm thick and match the compact construction perfectly.

Die superdünnen Twister Micro-Aufhängeseile aus Perlon oder Stahl sind nur einen Millimeter dick und fügen sich perfekt in das kompakte Design.
