WARRANTY

3 CLIPS / M

The Xpo Rail is ideal for hanging signage and advertising materials from the ceilings in rooms. In combination with the Artiteq Solid Slider hanging wires and Panel Grips, panels made from different materials, with a thickness of between 1 and 4 mm, can be hung from the ceiling. The Xpo Rail is attached using clips onto which the rail is firmly clicked. The Xpo Rail is designed to be attached to the ceiling in open spaces. Therefore, for reasons of safety, only Solid Slider hanging wires are advised in combination with this rail.
